

# A PAN FLUTE – HOW TO MAKE ONE

## How it works

1.

YOU'LL  
NEED

2. Arrange the straws in any order you wish

3. Align the straws

4. Mark the first straw at a distance of 4 cm (1.5 inches) from the edge, then mark each of the other straws with a line spaced 1.5 cm (0.6 inches) from the line on the previous straw

5. Cut the straws according to the markings

6. Seal the straws' lower opening with putty

7. Align a popsicle stick across the straws, 2 cm (0.8 inches) from the straws' edges, and glue it in place

8. Glue the second stick 2 cm (0.8 inches) below the first one

9. And play!
